About STAR MACRO-FLEX®

STAR MACRO-FLEX® is a true rubberizing, A/B (Acrylonitrile/ Butadiene) latex-based additive that significantly improves the performance of Specialty Petroleum Resin, Refined Tar and Asphalt based sealcoatings.

- Improves toughness and durability
- Improves color uniformity
- Increases flexibility
- Increases sand suspension
- Reduces drying time
- Improves chemical resistance

The addition of **STAR MACRO-FLEX®** enables a Refined Tar mix design to meet FAA Specification.
